

VALUELINK WINS 2008 INSIDE MARKET DATA AWARD

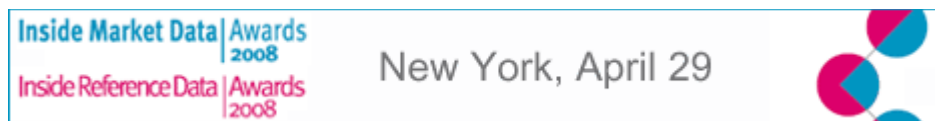

ValueLink is delighted to have won the Contract of the Year award at the 2008 Inside Market Data Awards held in New York recently. Stephen Choate (CEO) attended the awards evening and received the award on behalf of everyone at ValueLink.

This is the first time that a company of this size has been recognised in this way and is a great endorsement for the solution that ValueLink provides in correctly collating and reconciling complex securities. The actual Contract of the Year award is for the highly tailored service solution provided to BNP Paribas Securities Services in London. This service to BNP Paribas provides an automated solution for their trade position and pricing data requirements from their extensive counterparty network. This data is a fundamental requirement for accurate NAV calculations.

Discussions this week have also confirmed that this solution is to be extended to BNP Securities Services in Luxembourg. This service is also provided to BNY Mellon.

Inside Market Data is widely regarded as the premier market data journal for senior level management in the industry. The judging panel for this award included senior management from HSBC, CITI, Credit Suisse, Lehman Brothers, State Street, BNY Mellon, Barclays Capital and FISD.

Please find below the complete list of winners for 2008.

We are delighted to announce the winners of the Inside Market Data Awards 2008 and Inside Reference Data Awards 2008. Congratulations to everyone who won.

Hosted by *Inside Market Data* and *Inside Reference Data*, these awards recognize industry excellence within market data, reference data and enterprise data management. The awards celebrate the outstanding companies, people and products of the past year and ensure the shining stars of the data industry are truly recognized.

I'm sure everyone who attended will agree that a great night was had by all. Photos from the night will be online at www.insidemarketdata.com/awards in the next few days.
