

ValueLink Information Services Limited is pleased to announce their attendance at this year's ISIPS Event in London, to be held at The Brewery on Chiswell Street, on 21<sup>st</sup> May 2007.

Our exhibition stand will be in the Porter Tun room, where we will be delighted to meet with you.

Should you wish to discuss the services we supply or your changing requirements for validated data solutions and OTC data collection, please stop by and we will be more than happy to discuss your individual services requirements.

With years of experience in developing unique data solutions for our clients, we are well placed to help you manage your middle and back office processes efficiently, improve the reporting and reduce your operational risk by applying controlled processes to your manual data collection.

**About ValueLink Information Services Ltd**

ValueLink provides data solutions which validate global securities pricing and corporate actions data, reference data and NAV services for all global instrument types. Data is sourced and integrated from global data vendors, specialists and originators. A primary data source or benchmark for banks, fund administrators and managers in UK, Europe and US, ValueLink has also developed unique OTC data collection and validation services, each tailored to reduce the operational risk of our clients.
